Innovation Norway

Innovation Norway is the Norwegian national and regional authorities' instrument for realising value-creating commercial and industrial development throughout Norway. The goal of Innovation Norway is to encourage financially and socio-economically profitable commercial and industrial development while fostering the industrial potential of the regions. This is to be achieved by increasing the number of capable entrepreneurs, growth-oriented enterprises and innovative industrial environments.

Innovation Norway is a global organization. In addition to being represented in every Norwegian county, it has offices in more than 30 countries. In countries where Innovation Norway has no offices, Norwegian embassies provide access to international networks. The employees' wide knowledge of local and international conditions helps clients to convert their ideas into successful businesses.

14. The EEA and Norway Grants

EEA and Norway Grants - Solidarity and cooperation

The EEA Agreement includes a common goal of reducing social and economic disparities in Europe. Through the EEA and Norway Grants, Norway contributes to this effort and to strengthening the bilateral relations between Norway and the beneficiary states. We support development projects in priority areas such as environment and climate change, health and childcare, conservation of European cultural heritage, research and education, Schengen measures and judiciary, social dialogue and the strengthening of civil society. A number of Norwegian partners are engaged in projects and programmes.
