

Commodity List External Trade 2000 Supplement to Monthly Bulletin of External Trade 2000

## Official Statistics of Norway

This series consists mainly of primary statistics, statistics from statistical accounting systems and results of special censuses and surveys, for reference and documentation purposes. Presentation is basically in the form of tables, figures and necessary information about data, collection and processing methods, and concepts and definitions. In addition, a short overview of the main results is given.

The series also includes the publications Monthly Bulletin of Statistics, Statistical Yearbook of Norway, Historical Statistics, Regional Statistics and Guide to Norwegian Statistics.

## **Preface**

This publication contains the Commodity List for external trade statistics. It is a supplement the Monthly Bulletin of External Trade. The Commodity List follows the nomenclature of the Norwegian Customs Tariff, as from 1988 based on the combined tariff/statistical nomenclature, the Harmonized System (HS). The Commodity List can also be found under: //www.ssb.no/english/statistics\_by\_subject/09national/

The Commodity List is prepared by Division for External Trade, Energy and Industrial Production Statistics. Head of Division is Bjørn Bleskestad.

Statistics Norway, Oslo/Kongsvinger, 13 March 2000

### Background and purpose

This publication contains the Commodity List for external trade statistics. The publication is a supplement to the external trade statistics issued by Statistics Norway, described in chapter 4. The introductory text of this publication provides information about the design, concepts and variables of the Norwegian external trade

statistics. The commodity classification is described in chapter 3.1.

The purpose of the external trade statistics is to give information about the commodity flows between Norway and other countries. Exports and imports are important economic indicators both in describing structural changes and surveying the economic trends. The statistics are also intended to meet the demands from industry and trade for data in their planning of production, marketing services and sale. Furthermore, the statistics are needed for prognoses and analyses performed by public authorities, research institutions, private organisations etc. International organisations, like The United Nations' Statistical Office, the statistical office of EU (Eurostat) and others, make use of the information from the external trade statistics, supplied by the individual countries. The statistics form integrating parts of the national and international statistical systems and are also used in the compilation of national accounts and balance of payment statistics. Consequently, it is important that the internationally adopted definitions as well as standards for commodity and country classifications are adhered to.

The Norwegian external trade statistics are based mainly on information from the TVINN system (the Norwegian customs authorities' computerised data information system with the enterprises of the industries). The richly detailed information on commodity, quantity, value, partner country etc., are based on data from customs declarations.

## 2. Design and organisation

#### 2.1. Coverage

The coverage of the statistics is based on the guidelines of the United Nations' Statistical Commission (UN). The UN recommends that the international merchandise trade statistics record all goods that add to subtract from the stock of material resources of a country by entering (imports) or leaving (exports) its economic territory. There are two main principles for the delineation of external trade statistics: the general and the special trade principles. They differ in the recording of goods passing through customs ware-

houses and free zones. The general trade principle encompasses goods in free circulation, customs warehouses and free zones, whereas the special trade principle in its purest version delimits the external trade as the goods passing into or out of free circulation.

To the extent possible, the statistics are compiled in accordance with the general trade principle. Direct imports are recorded at the time of customs clearance. Goods coming through customs warehouses are recorded as imports when they are declared at their entering into the warehouse. Correspondingly, goods that are exported through warehouses are recorded at their final clearance for abroad.

The statistical area of Norway includes mainland Norway, the Norwegian part of the Continental Shelf, Svalbard and Jan Mayen with Bjørnøya.

Import statistics comprise commodities cleared on arrival and commodities placed in customs warehouses. The data do not contain information about imports directly to the installations on the Norwegian Continental Shelf. Estimates for these imports are included in the balance of payments of the national accounts. Imports for use on the Continental Shelf passing through Norwegian customs clearance are, however, recorded as other goods.

The following categories of imports are not included in the statistics:

- a) Consignments of goods in direct transit
- b) The catch outside the territorial waters by fishing expeditions and fishing vessels under the Norwegian flag
- c) Returned merchandise (claims etc.) and returned packing material
- d) Merchandise replacements free-of-charge
- e) Merchandise for repair in Norway on foreign account
- f) Merchandise returned after repair abroad on Norwegian account
- g) Personal belongings; removable articles imported on transfer of residence
- h) Goods imported for the Crown and diplomatic corps
- i) Supplies under military defence agreements
- j) Commercial samples, advertising material, gifts, etc. of negligible value
- Monetary gold, i.e. gold exchanged between national or international monetary authorities or authorised banks
- Current coin; unused Norwegian postage stamps, revenue and similar stamps of current or new issue; stamp-impressed paper; bank notes, stock, share and bond certificates and similar documents of title; cheque books

- m) Bunkers
- n) Imports that are temporary, according to international conventions and recommendations (goods on loan; professional equipment; transport equipment; containers, pallets and packing materials, broadcasting and television equipment for use to transmit material abroad or to record material, goods for display or use at exhibitions, fairs, meetings and similar events, instruments and apparatus for scientific research, welfare material for seafarers)

**Export statistics** comprise all merchandise exported from Norway directly from free circulation and through customs warehouses. Crude oil and natural gas transported abroad directly from the Norwegian Continental Shelf are also included.

The following categories of exports are not included in the statistics:

- a) Consignments of goods in direct transit
- b) Commodities from Customs Authority warehouses
- c) Consignments of goods from Norway to Svalbard or Jan Mayen
- d) Temporary exportation of goods (goods for display or use at exhibitions, for scientific research, goods on loan, professional equipment, transport equipment in international traffic, containers, broadcasting and television equipment, etc.) to be used for not more than twelve months abroad and goods returned after corresponding use in Norway.
- e) Returned merchandise (claims, free repair in Norway, free-of-charge merchandise replacements from Norway, merchandise to be repaired free of charge abroad for re-imports to Norway)
- f) Equipment and other supplies delivered to Norwegian ships, oil platforms or air craft in foreign trade
- g) Merchandise for repair abroad on Norwegian account, for later re-importation
- h) Merchandise after repair in Norway on foreign account
- i) Returned merchandise (claims etc.) and returned packing material
- j) Personal belongings; removable articles exported on transfer of residence
- k) Goods for own use by Norwegian diplomatic corps
- 1) Supplies under military defence agreements
- m) Commercial samples, advertising material, gifts, etc. of negligible value
- n) Consignments of provisions, bunkers and equipment, national or previously cleared by the customs, delivered to Norwegian ships and aircraft
- Monetary gold, i.e. gold exchanged between national or international monetary authorities or authorised banks

p) Current coin; unused postage stamps, revenue and similar stamps of current or new issue in the country to which they are destined; stampimpressed paper; bank notes, stock, share and bond certificates and similar documents of title; cheque books

#### 2.2. Data sources, collection and organisation

The external trade statistics are based mainly on information collected by the Customs Authorities. Statistics Norway receives electronic copies of the relevant data from the Customs declarations (SAD forms).

Customs clearance of consignments are effected by means of the computerised declaration system TVINN (the Customs Authorities' Information System with the Business Society). The declaration of a consignment is submitted by either the enterprise or private person that is the importer or exporter of the consignment, or by an agent acting on their behalf. Data from the declarations, checked by the Customs Authority, are transmitted continuously (twice a week) to Statistics Norway.

Statistics Norway also collects data on imports and exports outside the Norwegian customs territory. Data are collected from Norwegian ship owners on imports and exports of ships and mobile oil platforms and from Norwegian enterprises engaged in cross-border transfer of electric current. Data on exports of crude oil and natural gas are collected from enterprises in the petroleum sector, the Petroleum Directorate and the Department of Oil and Energy.

Ships (apart from deliveries of new-buildings) and mobile oil platforms An import occurs when a vessel is transferred from a foreign legal person to a Norwegian legal person as registered owner. An export is a transaction where a vessel is transferred from a Norwegian legal person as registered owner to a foreign one. Information on changes of ownership is continuously updated from the Norwegian ships' registers. For Norwegian vessels under foreign flag, basic information is received quarterly from Lloyds' Information Service. Further data are collected directly from the Norwegian enterprise involved in the transaction.

*Electric energy* Summarised data are submitted monthly to Statistics Norway by companies engaged in the cross-border transfer of electric current.

Crude oil Monthly data are collected from the operating companies of petroleum installations on the quantity and country of destination of all crude oil shipments. In the cases where port of discharge is not known at the time of departure, there is a follow-up collection of data directly from the exporter. Provisional prices are calculated by means of publicly

available information (such as Brent Blend prices), as well as statistical prices from periods where final figures are established. For the final computations of crude oil exports by pipeline, Statistics Norway makes use of official information on quantities from the Petroleum Directorate, norm prices from the Department of Oil and Energy, as well as tariffs from operators of pipelines and terminals. For shipments, final data on quantity and value are collected directly from the exporters.

Natural gas Preliminary figures are compiled from monthly volume data furnished by operators of pipelines conducting the gas abroad. The prices are calculated on the basis of statistical prices for periods where final figures have been established. Final figures are compiled by means of official information on quantities from the Petroleum Directorate. To compile an export price for the gas that is piped to Mainland Europe, reports on quantity and value are collected from all title holders in the pertinent fields. A common, final average half-yearly price per standardised cubic meter is calculated for Norwegian natural gas piped to Mainland Europe. Gas exports to the United Kingdom are valued at a quarterly price, on the basis of British import statistics and estimated transport and terminal costs.

# 3. Concepts, variables and classifications

#### 3.1. Commodity classifications

The merchandise in the external trade statistics are grouped according to two different classifications. The Harmonized Commodity Description and Coding System (HS) as printed in this publication, is a six-digit international combined customs and statistical nomenclature, whereas the Standard International Trade Classification (SITC) is a UN classification for statistical purposes. In SITC the commodities are grouped by level of processing and in HS according to their physical material.

For the years 1959-1987 the Norwegian commodity classification was based on the four-digit Customs Cooperation Council Nomenclature (CCCN). From January 1988 a new eight-digit classification entered into force, based on a six-digit HS nomenclature. The seventh and eighth digits are national, Norwegian ones. The commodity codes and descriptions are published yearly in NOS (Official Statistics of Norway) Commodity List Edition in English. The commodity list is distributed with the January issue of the Monthly Bulletin of External Trade and in the web site of Statistics Norway.

From 1997 on, the yearly *NOS External Trade* contains results according to both classifications, mainly on aggregate levels. The *Monthly Bulletin of External Trade* presents monthly results for important groups by SITC and on a detailed level under HS for selected commodities. Results on detailed, eight-digit level, with distribution by partner country as well as results by five-digit SITC level are available on order, see chapter 4.

Results in the main groups of the SITC-based Broad Economic Categories (BEC) are presented in the yearly NOS External Trade and on a running basis in the Monthly Bulletin of External Trade.

#### 3.2. Quantities

Net weight is the main concept except for imported goods where the duty is calculated on the basis of net weight plus packaging (e.g. canned goods). Some commodities are also recorded with quantity measured in a supplementary unit, as prescribed by the Norwegian Customs Tariff and Nomenclature. Statistics are available according to both quantity concepts.

#### 3.3. Statistical value

The statistical value of a consignment is defined as its value when crossing the Norwegian border, before duties, value-added and other taxes.

#### 3.4. Partner country

For import consignments country of origin and country of consignment are recorded. For exports the last known country of destination is recorded.

Country of origin (production) is for raw materials defined as the country in which the goods have been produced, and for manufactured goods, including refined products, as the country where the final processing took place, not counting re-packing, sorting and blending (except blending of tea). For goods originally produced in Norway having been exported and later re-imported, the country of consignment is recorded as country of origin.

Country of consignment is defined as the country from which the goods have been dispatched to Norway without any intervening commercial transaction (transhipment not counting). An invoicing exporter being a resident of a third country, is of no consequence in this connection. Tables on imports by country of consignment are available on order, see chapter 4.

Country of destination is defined as the country, which at the time of exportation, is the last known country to which the goods are shipped, directly or through other countries, without any commercial transaction intervening (transhipment not counting). The country codes follows the set of alpha-2 codes of the international standard ISO-3166. Before 1988 a three-digit code was used.

The ISO country codes are also used as a basis for grouping the external trade statistics by major trade areas (EU, EFTA, OECD etc.), and in the compilation of imports from countries entitled to preferential treatment. The international GSP agreement (Generalized System of Preferences) defines tradeencouraging instruments such as exemption or reduction of duties on imports from countries included under the arrangement. A subset of the the GSP is constituted by the least developed countries (LDC).

### 4. Further information

A variety of reports, including reports programmed according to the customer's needs, may be ordered from External Trade's Information or Subscribtion or as single orders. (See appendix C for more information).

Special services as a phamphlet with detailed annual figures (imports and exports by commodity and country, HS), and weekly figures for exports of salmon may be ordered directly from the External trade's Information Office.

|----------------|---|--------------|---|
| IIO.           | •   | 1            | ·   |
|                | graphite; preparations based on graphite or   | 38.09        | Finishing agents, dye carriers to   |
|                | other carbon in the form of pastes, blocks, plates or other semi-manufactures:        |              | accelerate the dyeing or fixing of<br>dyestuffs and other products and                                    |
| 1000           | - Artificial graphite   |              | preparations (for example, dressings  |
| 2000           | - Colloidal or semi-colloidal graphite  |              | and mordants), of a kind used in the  |
| 3000           | - Carbonaceous pastes for electrodes  |              | textile, paper, leather or like industries,   |
|                | and similar pastes for furnace linings  |              | not elsewhere specified or included:  |
| 9000           | - Other   | 1000         | - With a basis of amylaceous substances   |
|                |   |              | - Other:  |
| 38.02          | Activated carbon; activated natural mineral   |              | Of a kind used in the textile   |
|                | products; animal black, including spent   |              | or like industries:   |
|                | animal black:   | 9101         | Textile washing and rinsing agents, including   |
| 1000           | - Activated carbon  | 0100         | those for domestic washing machines   |
| 9000           | - Other   | 9109<br>9200 | Other<br>Of a kind used in the paper or   |
| 38.03          | Tall oil, whether or not refined:   | 9200         | like industries   |
| 0001           | - Crude   | 9300         | Of a kind used in the leather or  |
| 0009           | - Other   | 3000         | like industries   |
| 0000           |   |              |   |
| 38.04 0000     | Residual Iyes from the manufacture of   | 38.10        | Pickling preparations for metal   |
|                | wood pulp, whether or not concentra-  |              | surfaces; fluxes and other auxiliary  |
|                | ted, desugared or chemically treated,   |              | preparations for soldering, brazing   |
|                | including lignin sulphonates, but   |              | or welding; soldering, brazing or   |
|                | excluding tall oil of heading no. 38.03   |              | welding powders and pastes consisting   |
|                |   |              | of metal and other materials;   |
| 38.05          | Gum, wood or sulphate turpentine and other  |              | preparations of a kind used as cores or   |
|                | terpentine oils produced by the distillation or                                       |              | coatings for welding electrodes or rods:  |
|                | other treatment of coniferous woods; crude  |              | - Pickling preparations for metal surfaces;   |
|                | dipentene; sulphite turpentine and other crude paracymene; pine oil containing alpha- |              | soldering, brazing or welding powders<br>and pastes consisting of metal and other                         |
|                | terpineol as the main constituent:  |              | materials:  |
| 1000           | - Gum, wood or sulphate turpentine oils   | 1010         | Pickling preparations for metal surfaces  |
| 2000           | - Pine oil  | 1020         | Welding or brazing powders and pastes,  |
| 9000           | - Other   |              | consisting of metals or other materials   |
|                |   |              | - Other:  |
| 38.06          | Rosin and resin acids, and derivatives  | 9010         | Welding fluxes  |
|                | thereof; rosin spirit and rosin oils; rum gums:                                       | 9090         | Other   |
| 1000           | - Rosin and resin acids   |              |   |
| 2000           | - Salts of rosin, of resin acids or of derivates                                      | 38.11        | Anti-knock preparations, oxidation  |
|                | of rosin or resin acid, other than salts of   |              | inhibitors, gum inhibitors, viscosity   |
|                | rosin adducts   |              | improvers, anti-corrosive prepa-  |
| 3000           | - Ester gums  |              | rations and other prepared additives,   |
| 9000           | - Other   |              | for mineral oils (including gasoline)   |
| 38.07          | Wood tar; wood tar oils; wood   |              | or for other liquids used for the same purposes as mineral oils:  |
| 36.07          | creosote; wood naphtha; vegetable   |              | - Anti-knock preparations:  |
|                | pitch; brewers' pitch and similar   | 1100         | Based on lead compounds   |
|                | preparations based on rosin, resin  | 1900         | Other   |
|                | acids or on vegetable pitch:  | 1000         | - Additives for lubricating oils:   |
| 0001           | - Wood tar  | 2100         | Containing petroleum oils or oils   |
| 0002           | - Tall oil pitch  |              | obtained from bituminous minerals   |
| 0009           | - Other   | 2900         | Other   |
|                |   | 9000         | - Other   |
| 38.08          | Insecticides, rodenticides, fungi-  |              |   |
|                | cides, herbicides, anti-sprouting   | 38.12        | Prepared rubber accelerators;   |
|                | products and plant-growth regulators,   |              | compound plasticisers for rubber or   |
|                | disinfectants and similar products,   |              | plastics, not elsewhere specified or  |
|                | put up in forms or packings for retail  |              | included; anti-oxidising preparations   |
|                | sale or as preparations or articles   |              | and other compound stabilisers for  |
|                | (for example, sulphur-treated bands,  | 1000         | rubber or plastics:   |
| 1000           | wicks and candles, and fly-papers):   | 1000         | - Prepared rubber accelerators  |
| 1000<br>2000   | - Insecticides<br>- Fungicides  | 2000<br>3000 | - Compound plasticisers for rubber or plastics  |
| 3000           | - Fungicides - Herbicides, anti-sprouting products                                    | 3000         | <ul> <li>Anti-oxidising preparations and other compound<br/>stabilisers for rubber or plastics</li> </ul> |

|--|---|--|---|
| no.  | Description of Goods  | no.  | Description of Goods  |
| 2000   | - Multiple (folded) or cabled   | 1  |   |
|  |   | 54.03  | Artificial filament yarn (other than  |
| 53.08  | Yarn of other vegetable textile   |  | sewing thread), not put up for  |
|  | res; paper yarn:  |  | retail sale, including artificial   |
| 1000   | - Coir yarn   |  | monofilament of less than 67 decitex:   |
| 2000   | - True hemp yarn  | 1000   | <ul> <li>High tenacity yarn of viscose rayon</li> </ul>   |
| 3000   | - Paper yarn  | 2000   | - Textured yarn   |
| 9000   | - Other   |  | - Other yarn, single:   |
|  |   | 3100   | Of viscose rayon, untwisted or with a twist   |
| 53.09  | Woven fabrics of flax:  |  | not exceeding 120 turns per metre   |
|  | - Containing 85% or more by weight of   | 3200   | Of viscose rayon, untwisted or with a twist   |
| 4400   | flax:   | 2200   | exceeding 120 turns per metre   |
| 1100<br>1900   | Unbleached or bleached<br>Other   | 3300<br>3900   | Of cellulose acetate<br>Other   |
| 1900   | - Containing less than 85% by weight of flax:   | 3900   | - Other yarn, multiple (folded) or cabled:  |
| 2100   | Unbleached or bleached  | 4100   | - Of viscose rayon  |
| 2900   | Other   | 4200   | Of cellulose acetate  |
| 2900   | Other   | 4900   | Other   |
| 53.10  | Woven fabrics of jute or of other   | 4300   | Other   |
| ,5.10  | textile bast fibres of heading no. 53.03:   | 54.04  | Synthetic monofilament of 67 decitex or more  |
| 1000   | - Unbleached  | 34.04  | and of which no cross-sectional dimension   |
| 9000   | - Other   |  | exceeds 1 mm; strip and the like (for example   |
| 3000   | Culci   |  | artificial straw) of synthetic textile materials  |
| 53.11  | Woven fabrics of other vegetable  |  | of an apparent width not exceeding 5 mm:  |
|  | textile fibres; woven fabrics of paper yarn:  | 1000   | - Monofilament  |
|  | - Woven fabrics of ramie:   | 9000   | - Other   |
| 0010   | Unbleached or bleached  |  |   |
| 0020   | Other   | 54.05 0000   | Artificial monofilament of 67 decitex   |
| 0090   | - Other   |  | or more and of which no cross-  |
|  |   |  | sectional dimension exceeds 1 mm;   |
|  |   |  | strip and the like (for example,  |
| CHAPTER 5  | 4   |  | artificial straw) of artificial   |
|  |   |  | textile materials of an apparent  |
| MAN-MADE   | FILAMENTS   |  | width not exceeding 5 mm  |
| 54.01  | Sewing threads of man-made filaments,   | 54.06  | Man-made filament yarn (other than  |
|  | whether or not put up for retail sale:  | 000  | sewing thread), put up for retail sale:   |
| 1000   | - Of synthetic filaments  | 1000   | - Synthetic filament yarn   |
| 2000   | - Of artificial filaments   | 2000   | - Artificial filament yarn  |
| 54.02  | Synthetic filament yarn (other than   | 54.07  | Woven fabrics of synthetic filament   |
|  | sewing thread), not put up for  | 0  | yarn, including woven fabrics obtained  |

| no.   |      | Description of Goods  | no.          | Description of Goods   |
|       | 2100 | Of agglomerated, synthetic or   | 1903         | Curb stones (for gardens, parks and roads)                                     |
|       |      | natural diamond   | 1909         | Other  |
|       | 2200 | Of other agglomerated abrasives   |              | - Other articles:  |
|       |      | or of ceramics  |              | Prefabricated structura components for building                                |
|       | 2300 | Of natural stone  |              | or civil engineering:  |
|       | 3000 | - Hand sharpening or polishing stones   | 9102         | Insulated and non-insulated  |
| 00.05 |      | National an artificial above to a conden  | 0400         | outer walls (front components)   |
| 68.05 |      | Natural or artificial abrasive powder   | 9103         | Inner walls, homogeneous   |
|       |      | or grain, on a base of textile material, of paper, of paperboard or of other materials, | 9104<br>9105 | Roofs or ceilings components<br>Beams and pillars (columns)                    |
|       |      | whether or not cut to shape or sewn or  | 9103         | Base pillars   |
|       |      | otherwise made up:  | 9108         | Other  |
|       | 1000 | - On a base of woven textile fabric only  | 0.00         | Other:   |
|       | 2000 | - On a base of paper or paperboard only   | 9901         | Roofing tiles  |
|       | 3000 | - On a base of other materials  | 9902         | Manholes, manhole covers, cones  |
|       |      |   |              | and interseptor for sludge   |
| 68.06 |      | Slag wool, rock wool and similar  | 9903         | Pipes of a diameter of 500 mm or less  |
|       |      | mineral wools; exfoliated vermiculite,  | 9904         | Pipes of a diameter of more than 500 mm  |
|       |      | expanded clays, foamed slag and similar   | 9908         | Other  |
|       |      | expanded mineral materials; mixtures and  | 20.44        |  |
|       |      | articles of heat-insulating, sound-insulating   | 68.11        | Articles of asbestos-cement,   |
|       |      | or sound-absorbing mineral materials, other than those of heading no. 68.11             | 1000         | of cellulose fibre-cement or the like: - Corrugated sheets                     |
|       |      | or 68.12 or of chapter 69:  | 2000         | - Other sheets, panels, tiles and  |
|       | 1000 | - Slag wool, rock wool and similar  | 2000         | similar articles   |
|       | 1000 | mineral wools (including  | 3000         | - Tubes, pipes and tube or pipe fittings                                       |
|       |      | intermixtures thereof), in bulk,  | 9000         | - Other articles   |
|       |      | sheets or rolls   |              |  |
|       | 2000 | - Exfoliated vermiculite, expanded  | 68.12        | Fabricated asbestos fibres; mixtures   |
|       |      | clays, foamed slag and similar  |              | with a basis of asbestos or with a basis                                       |
|       |      | expanded mineral materials  |              | of asbestos and magnesium carbonate;   |
|       |      | (including intermixtures thereof)   |              | (for example, thread, woven fabric, clothing,                                  |
|       | 9000 | - Other   |              | headgear, footwear, gaskets), whether or                                       |
| 60.07 |      | Articles of caphalt or of similar   |              | not reinforced, other than goods of  |
| 68.07 |      | Articles of asphalt or of similar material (for example, petroleum                      | 1000         | heading no. 68.11 or 68.13: - Fabricated asbestos fibres:                      |
|       |      | bitumen or coal tar pitch):   | 1000         | mixtures with a basis of asbestos  |
|       | 1000 | - In rolls  |              | or with a basis of asbestos and  |
|       | 9000 | - Other   |              | magnesium carbonate  |
|       |      |   | 2000         | - Yarn and thread  |
| 68.08 | 0000 | Panels, boards, tiles, blocks   | 3000         | <ul> <li>Cords and string, whether or not plaited</li> </ul>                   |
|       |      | and similar articles of vegetable   | 4000         | - Woven or knitted fabric  |
|       |      | fibre, of straw or of shavings,   | 5000         | - Clothing, clothing accessories,  |
|       |      | chips, particles, sawdust or other  | 0000         | footwear and headgear  |
|       |      | waste, of wood, agglomerated with   | 6000         | - Paper, millboard and felt  |
|       |      | cement, plaster or other mineral binders  | 7000         | <ul> <li>Compressed asbestos fibre jointing,<br/>in sheets or rolls</li> </ul> |
| 68.09 |      | Articles of plaster or of   | 9000         | - Other  |
| 00.03 |      | compositions based on plaster:  | 3000         | Guici  |
|       |      | - Boards, sheets, panels, tiles and   | 68.13        | Friction material and articles   |
|       |      | similar articles, not ornamented:   |              | thereof (for example, sheets, rolls,   |
|       | 1100 | Faced or reinforced with paper or   |              | strips, segments, discs, washers,  |
|       |      | paperboard only   |              | pads, not mounted, for brakes, for   |
|       | 1900 | Other   |              | clutches or the like, with a basis   |
|       | 9000 | - Other articles  |              | of asbestos, of other mineral sub-   |
|       |      |   |              | stances or of cellulose, whether or  |
| 68.10 |      | Articles of cement, of concrete or of   |              | not combined with textile or other   |
|       |      | artificial stone, whether or not  | 1000         | materials:   |
|       |      | reinforced:   | 1000         | - Brake linings and pads   |
|       |      | - Tiles, flagstones, bricks and similar articles:                                       | 9000         | - Other  |
|       | 1101 | Building blocks and bricks:<br>Of silico-calcium  | 68.14        | Worked mica and articles of mica,  |
|       | 1101 | Of silico-calcium<br>Of lightweight concrete (e.g.                                      | 00.14        | including agglomerated or  |
|       | 1102 | limestone concrete, gas   |              | reconstituted mica, whether or not on  |
|       |      | concrete, pumice concrete)  |              | a support of paper, paperboard or  |
|       | 1109 | Other   |              | other materials:   |
|       | -    |   | 1000         |  |

| 10.        | Description of Goods  | no.       | Description of Goods  |
| 33.04 0000 | Filing cabinets, card-index cabinets,   | 1000      | - Coated electrodes of base metal,                                    |
|            | paper trays, paper rests, pen trays,  | 0000      | for electric arc welding  |
|            | office-stamp stands and similar   | 2000      | - Cored wire of base metal, for                                       |
|            | office or desk equipment, of base   | 2000      | electric arcwelding   |
|            | metal, other than office furniture of   | 3000      | - Coated rods and cored wire, of base                                 |
|            | heading no. 94.03   |           | metal, for soldering, brazing or<br>welding by flame                  |
| 3.05       | Fittings for loose-leaf binders or  | 9000      | - Other, including parts  |
| 5.00       | files, letter clips, letter corners,  | 3000      | Ctrior, morading parts  |
|            | paper clips, indexing tags and  |           |   |
|            | similar office articles, of base  | CHAPTER 8 | 4   |
|            | metal; staples in strips (for   |           |   |
|            | example, for offices, upholstery,   |           | REACTORS, BOILERS, MACHINERY  |
|            | packaging), of base metal:  | AND MECH  | ANICAL APPLIANCES; PARTS THEREOF                                      |
| 1000       | - Fittings for loose-leaf binders or files                                      |           |   |
| 2000       | - Staples in strips   | 84.01     | Nuclear reactors; fuel elements                                       |
| 9000       | - Other, including parts  |           | (cartridges), non-irradiated, for                                     |
|            | Della way and the like way  |           | nuclear reactors; machinery and                                       |
| 3.06       | Bells, gongs and the like, non-   | 1000      | apparatus for isotopic separation: - Nuclear reactors                 |
|            | electric, of base metal; statuettes and other ornaments, of base metal;         | 2000      | Nuclear reactors     Machinery and apparatus for                      |
|            | photograph, picture or similar  | 2000      | isotopic separation, and parts thereof                                |
|            | frames, of base metal; mirrors of   | 3000      | - Fuel elements (cartridges), non-irradiated                          |
|            | base metal:   | 4000      | - Parts of nuclear reactors   |
| 1000       | - Bells, gongs and the like   |           |   |
|            | - Statuettes and other ornaments:   | 84.02     | Steam or other vapour generating                                      |
| 2100       | Plated with precious metal  |           | boilers (other than central heating                                   |
| 2900       | Other   |           | hot water boilers capable also of                                     |
| 3000       | - Photograph, picture or similar  |           | producing low pressure steam); super-                                 |
|            | frames, mirrors   |           | heated water boilers:   |
|            |   | 1100      | - Steam or other vapour generating boilers:                           |
| 3.07       | Flexible tubing of base metal, with   | 1100      | Watertube boilers with a steam  |
| 1000       | or without fittings: - Of iron or steel   | 1200      | production exceeding 45 t per hour Watertube boilers with a steam     |
| 9000       | - Of other base metal   | 1200      | production not exceeding 45 t per hour                                |
| 3000       | - Of Other base metal   | 1900      | Other vapour generating boilers,                                      |
| 3.08       | Clasps, frames with clasps, buckles,  | 1000      | including hybrid boilers  |
|            | buckle-clasps, hooks, eyes, eyelets   | 2000      | - Super-heated water boilers  |
|            | and the like, of base metal, of a   |           | - Parts:  |
|            | kind used for clothing, footwear,   | 9010      | Corrugated fire-box flues   |
|            | awnings, handbags, travel goods or  | 9090      | Other   |
|            | other made up articles; tubular or  |           |   |
|            | bifurcated rivets, of base metal;   | 84.03     | Central heating boilers other than                                    |
|            | beads and spangles, of base metal:  |           | those of heading no. 84.02:   |
| 1000       | Hooks avec and avalete  | 1001      | - Boilers:<br>Of cast iron  |
| 2000       | <ul><li>Hooks, eyes and eyelets</li><li>Tubular or bifurcated rivets</li></ul>  | 1001      | Of cast from  |
| 9000       | - Other, including parts  | 9000      | - Parts   |
| 3000       | - Other, including parts  | 3000      | - i alis  |
| 3.09       | Stoppers, caps and lids (including  | 84.04     | Auxiliary plant for use with boilers                                  |
|            | crown corks, screw caps and pouring   |           | of heading no. 84.02 or 84.03 (for                                    |
|            | stoppers), capsules for bottles,  |           | example, economisers, super-heaters,                                  |
|            | threaded bungs, bung covers, seals and  |           | soot removers, gas recoverers);                                       |
|            | other packing accessories, of base metal:                                       |           | condensers for steam or other vapour                                  |
| 1000       | - Crown corks   |           | power units:  |
| 9000       | - Other   | 1000      | <ul> <li>Auxiliary plant for use with</li> </ul>                      |
|            |   |           | boilers of heading no. 84.02 or 84.03                                 |
| 3.10 0000  | Sign-plates, name-plates, address-  | 2000      | - Condensers for steam or other                                       |
|            | plates and similar plates, numbers,   | 0000      | vapour power units  |
|            | letters and other symbols, of base metal,                                       | 9000      | - Parts   |
|            | excluding those of heading no. 94.05  | 84.05     | Producer age or water age generators                                  |
| 11         | Wire rade tubes plates electrodes and   | 84.05     | Producer gas or water gas generators,                                 |
| 3.11       | Wire, rods, tubes, plates, electrodes and similar products, of base metal or of |           | with or without their purifiers; acetylene gas generators and similar |
|            | metal carbides, coated or cored with flux                                       |           | water process gas generators, with or                                 |
|            | material, of a kind used for soldering, brazing,                                |           | without their purifiers:  |
|            | welding or deposition of metal or metal   | 1000      | - Producer gas or water gas   |
|            | 3   |           |   |
|            | carbides; wire and rods, of agglomerated  |           | generators, with or without their                                     |

Appendix B

# **PUBLICATIONS - External Trade**

#### **Monthly Bulletin of External Trade**

Published about 2-3 weeks after the end of the registration month and gives preliminary monthly figures for selected commodities. Some tables are according to the Harmonized System and others according to SITC, Rev.3. Quarterly indices according to SITC are also included.

An extra issue with final figures for the previous year is published in April.

#### **External Trade**

The annual publication has been completely revised from the 1997 edition. The publication now contains time series and tables that highlight the development of Norwegian trade. There are also tables with detailed figures on for instance imports of food stuff, exports of fish, imports from developing countries, exports of oil and gas etc.. See below about pamphlet with tables 1 and 2, identical with the ones in the previous annual publication.

#### **Commodity List**

Descriptions of the commodities according to the Norwegian Customs Tariff, from 1988 based on the Harmonized system.

#### **Weekly Bulletin of Statistics**

This bulletin has once a month articles on external trade.

#### **Monthly Bulletin of Statistics** (only available on Statistics Norway's web-sites)

Main figures for external trade with time series for the last ten years and monthly figures for the last four years as well as quarterly indices.

Subscriptions to the above publications may be ordered from: Sales and Subscription Services

P.O. Box 1260, 2225 KONGSVINGER

Telephone: + 47 62 88 55 00 Telefaks: + 47 62 88 55 95

#### **Special services:**

#### Press release:

A monthly press release offers preliminary figures for imports and exports and the trade balance for the previous month. Published on the 15 or the nearest working day thereafter.

#### **Annual pamphlet:**

Detailed figures(HS), imports and exports by commodity and country.

### **Exports of salmon:**

Weekly figures with price and quantity.

The press release and the annual pamphlet can be ordered from the Information Office, External Trade. Telephone: + 47 22 86 47 52/53, telefaks + 47 22 42 14 68.

Appendix C

# Subscriptions, single orders and prices for 2000

Reports may be ordered from:

Statistics Norway, External Trade, P.O.Box 8131 Dep, N-0033 Oslo Telefax: +47 22 42 14 68. Visiting address: Kongens gate 6

#### **Standard subscriptions**

The reports show figures from the last available month and accumulated figures from January on. The figures are according to the international Harmonized System supplemented with a 2-digit national extension. When ordering please state the following:

- Imports, exports or both
- Distribution by **country**
- Quantities specified by place of clearance

**The subscription** rate is calculated by adding 1, 2 or 3 plus 4, 5 and 6.

| 1. Quantity and value, country distrib           | oution:     |           |           |          |            |     |    |  |  |
